

CHICAGO AREA RADIO CLUB COUNCIL

Chicago, Illinois

Al Knodell - W9TLQ

220 W. Institute Pl.

Chicago, Ill.

Dear O.M:-

Enclosed you will find a copy of the Revised Emergency Field Day regulations. We believe we have incorporated therein all desirable features recommended by the various clubs. It is designed to give all clubs an equal chance whether they be small or large, operating one transmitter or three.

A great deal of effort and planning was required in preparing this new and unusual contest. To the best of our knowledge nothing like it has ever been conducted heretofore. If it "clicks" and meets with the approval of your club we hope to conduct it at least three times a year. We have done our part, now the rest is up to you and we ask your cooperation in helping to make this first emergency field day a success.

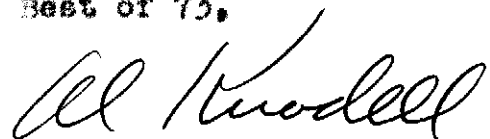

If your club has not already done so please see that the following information is forwarded to the writer at once:

Call letters under which your club will operate.
Frequency on which your first transmission will
be conducted.

Name, address, home and office telephone number
of at least two members of the team which will
be operating the emergency station.

Will you please personally see that this letter goes forward to the writer at once as all clubs participating in this field day must have this information in the hands of the Chairman of the Inter-Club Activities Committee not later than midnight of September 30th. In order to be eligible to compete in the contest. May I count on your cooperation to make this field day a successful one.

Best of 73,

Al Knodell - Chairman
Inter-Club Activities Committee
Chicago Area Radio Club Council
